PETTIT MARINE PAINT OFFERS BARRACUDA EXTREMELY EFFECTIVE ANTIFOULING PAINT FOR EXPORT

Marine Paint Company Continues Pioneering Innovative Solutions

Rockaway, N.J. – Pettit has been pioneering innovative solutions in the marine industry for over 150 years. Pettit takes pride in creating the most trusted products in the business. Barracuda offers technology not seen before in the marine industry.

Barracuda delivers exceptional, multi-season, tri-biocide performance by combining the proven reliability of Copper Thiocyanate, the impressive strength of ECONEA®, and the versatile organic boosting biocide Zinc Omadine. This combination makes Barracuda effective against all types of fouling found in the harshest of marine environments. Barracuda provides a whole new level of performance while preventing build-up and keeping underwater surfaces smooth.

Pettit's Barracuda is available in the colors black and blue and can be found outside the United States at fine marine supply stores and boatyards after December 15th 2018. Application can easily be done with a brush, roller, or spray. For complete preparation and usage instructions visit Pettit Marine Paint online at www.pettitpaint.com.

About Pettit Marine Paint:

Pettit Marine Paint manufactures and markets a complete line of high performance, American made, marine coatings. Pettit's name is recognized throughout the world as a leader in the marine industry, and our reputation is based on results; our products outperform all other major brands in the industry time and time again. We're committed to keeping your boat protected and beautiful by providing long lasting, quality products that let you spend less time maintaining your boat and more time enjoying it. From topside paints to antifouling bottom paints and everything in-between, Pettit's products have you covered. Pettit's plant is located in Rockaway, New Jersey, and our products are available throughout the world.
